

The Lorusso have been active members of the Falmouth, Massachusetts community, giving back to the education system in the community since 1980. Mrs. Lorusso discovered her passion for supporting our schools and teachers when she began volunteering at Teaticket Elementary School. She eventually went on to serve on the Falmouth School Committee for one term and as the president of the Teaticket Parent Teacher Organization for many years. The Lorusso were also integral to the creation of a walking track at Teaticket Elementary as well as a greenhouse at Falmouth High School.

But the Lorusso's dedication of time and resources does not just stop with our educators. Mrs. Lorusso serves as a Falmouth Town Hall member—sitting on the board of the Falmouth Service Center, as well as the Falmouth Chamber of Commerce. And, three years ago, Mr. and Mrs. Lorusso cofounded the Falmouth Veterans Day Breakfast to honor the service of local veterans through a complimentary reception.

Mr. Speaker, I am pleased to honor Mr. and Mrs. Lorusso for their many years of extraordinary service to their fellow citizens and for the sterling example they have set for their friends and family. I ask that my colleagues join me in congratulating them for being recognized by the Falmouth Education Foundation.

**HONORING THE MILFORD CHAPTER OF THE LINKS INCORPORATED AS THEY CELEBRATE THEIR 30TH ANNIVERSARY**

**HON. ROSA L. DeLAURO**

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

*Friday, February 26, 2016*

Ms. DeLAURO. Mr. Speaker, it is my great privilege to rise today to join all of those gathered in honoring the life and legacy of Dr. Martin Luther King, Jr. Across Connecticut there will be a multitude of events paying tribute to Dr. King, but in Milford, Connecticut a remarkable milestone for an outstanding organization will also be celebrated. With this year's "Reflections XXX: A Tribute to Reverend Dr. Martin Luther King, Jr." the Milford Chapter of The Links Incorporated will mark the organization's 30th Anniversary and it is with great pride that I stand today to extend my deepest thanks and appreciation to them for their invaluable contributions to the Milford community.

The Milford Chapter is one of two hundred eighty two chapters of The Links Incorporated throughout the United States and in the Commonwealth of the Bahamas. Established in 1946, this non-profit organization internationally includes 14,000 professional women of color who are committed to enriching, sustaining and ensuring the culture and economic survival of African Americans and others of African ancestry.

For each of the last thirty years, the Milford Chapter has sponsored this remembrance event. In this traditional time of re-evaluation and reflection, this annual event reminds us all to consider how we, whether as an individual or in a larger group, can make more of a difference in the lives of others and strengthen the bonds of friendship and sense of harmony within our communities. Yet this is only one of

many ways the Milford Chapter supports and enriches our community.

The five guiding "facets" for The Links Incorporated include Service to Youth, Health and Human Services, National Trends and Services, International Trends and Services, and The Arts. Throughout the year Milford Links members sponsor and participate in a variety of events and projects that promote these five pillars. From supporting projects to help recovery efforts in Haiti and bring irrigation systems to farmers in Africa to raising awareness on breast cancer and sponsoring scholarships and promoting literacy, Milford Links members are not only making a difference in the lives of others but also inspiring a new generation to give back to their community.

Today, a monument stands—the first monument on the National Mall not dedicated to a white man, a war, or a president—a great granite sculpture of Dr. Martin Luther King Jr. And in the line of sight just beyond that statue, you can make out the columns of the Lincoln Memorial. In his iconic speech on the steps of that memorial, Dr. King spoke of "the fierce urgency of now." He did not just mean a moment in 1963. Over the course of its thirty year history, the Milford Chapter of The Links Incorporated has worked with "the fierce urgency of now" to make our community a better place to live, learn, and grow.

I am honored to rise today and extend my sincere thanks and appreciation to the Milford Chapter of The Links Incorporated for all of their good work on behalf of our community. Theirs is a legacy of service and generosity that serves as an inspiration to us all. My heartfelt congratulations on their 30th Anniversary and very best wishes for continued success.

**BOKO HARAM**

**HON. TED POE**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, February 26, 2016*

Mr. POE of Texas. Mr. Speaker, in 2010, we saw a similar dip in Boko Haram's capability. Its founder was killed and many of its fighters wiped out. Boko Haram went into hiding and all was quiet, but that quiet did not last. Boko Haram regrouped, appointed a new leader even more radical than its founder, and came back deadlier than ever. We can't let that happen again. Boko Haram is still capable of launching deadly asymmetric attacks throughout the Lake Chad Basin. My staff has been tracking their attacks. There is hardly a day that goes by when there is not some sort of Boko Haram attack that kills innocents.

Over the past few years, relations between Nigeria and the U.S. have been strained. Joint military trainings were cancelled and the U.S. hesitated to supply weapons to Nigeria's military citing concerns about human rights abuses.

It took the United States 11 years to designate Boko Haram as a foreign terrorist organization. Finally on November 12, 2013, the night before this Subcommittee and the Africa Subcommittee held a joint hearing on why Boko Haram was not on the FTO list, State Department called to say it was designating the group. That was an important step but

there are questions about the implementation of the designation. It does not seem that all the tools that a designation carries are being brought to bear on the group, especially when it comes to stopping its financing.

The U.S. has started to do more to help Nigeria combat Boko Haram since the election of Nigerian President Buhari in late May of 2015. Infantry training has been restarted and we are seeing an increased level of cooperation between AFRICOM and the Nigerian military. In October, the Administration announced that it was sending troops and drones to Cameroon as well as surveillance aircraft to Niger. But like the FTO designation these are steps that should have been taken years ago, before Boko Haram was allowed to become more lethal than ISIS. Now we must do more to support our African partners to stamp out this Islamist menace once and for all.

The fight against Boko Haram is essential to U.S. national security interests. In ISIS, we have already seen what happens when we underestimate a terrorist group. While Boko Haram may not have the capability to attack the United States today, neither did al Qaeda in the years prior to 9/11. We cannot wait for an attack to happen on American soil before getting serious about destroying those who want to destroy us. Now is the time, when it costs far less blood and treasure, to stamp out Boko Haram.

And that's just the way it is.

**RECOGNIZING ENGINEERS WEEK 2016**

**HON. LOU BARLETTA**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, February 26, 2016*

Mr. BARLETTA. Mr. Speaker, it is my privilege to draw your attention to a special event, Engineers Week, taking place from February 21st through the 27th. This honorary week is a time to recognize the hard work of all engineers and the innumerable contributions they have made, especially within my district and state.

The scientific skills and specialized knowledge of the engineers in my district have fulfilled my constituents' daily needs and resolved some of the major technological challenges of our time. Often referred to as the stealth profession, engineers have influenced nearly everything around us—even when we may not recognize it. Whether designing efficient urban environments, protecting towns from natural disasters, or making simple tasks more accessible, engineers provide the lifeblood that drives our modern societies.

Engineers Week is a formal coalition of more than 70 engineering, education, and cultural societies, with more than 50 corporations and government agencies focused on raising public awareness of engineers' positive contributions to our communities. This week also prompts parents, teachers, and students to consider the importance of a technical education and a high level of math, science and technology literacy, and motivates youth to pursue engineering careers in order to provide a diverse and vigorous engineering workforce.

Mr. Speaker, it has been an honor to represent the engineers of my district and their families. I am grateful for their contributions to
